- Other Skills:** Problem Solving, Project Management

Projects

Online Job Portal	Nov 2025 – Dec 2025
Java Based Application	
- Developed a web-based job portal that allows job seekers to create profiles, search jobs, and apply online. - Implemented recruiter-side features such as job posting, application review, and applicant filtering. - Built authentication and role-based access for users and employers using JSP and Servlets. - Ensured reliable backend operations using JDBC for database connectivity.	
Student Course Registration System	May 2025 – June 2025
Java Based Application	
- Designed and developed a desktop-based course registration platform enabling students to enroll, drop, and track courses efficiently. - Built a structured GUI using Java Swing, ensuring an intuitive and responsive user experience. - Implemented secure data operations using JDBC with a normalized MySQL database.
